AARON **JOHNSON**

FULL STACK WEB DEVELOPER

347.786.0266   aaron@ajfs.me   www.ajfs.me   Greater NYC Area

ABOUT ME

A multi-disciplinary pixel-perefectionist with a love for clean code, I bring a wealth of diverse experience to the table enabling me to hit the ground running on entry. I particularly excel in high-stakes environments where my contributions are essential toward both team and org KPIs.

EXPERIENCE

INTERACTIVE DESIGNER
POST STUDIOS 2019 - 2020
• Mockup design for digital interactive ad campaigns using Adobe Photoshop, Illustrator & XD.
• Using HTML, CSS & JavaScript, I craft engaging interactive experiences for both web & mobile.

CREATIVE MANAGER
TREMOR VIDEO 2014 - 2018
• Distributed pre-production mockup & post-sale production requests to various members of the design team, offering design guidance as needed.
• Collaborated with sales and ad ops depts. in educating clientele as to our product offering, platform capabilities & performance metrics.
• Supplied additional support for maximum transparency surrounding campaign goals and outcomes.

DESIGNER
TREMOR VIDEO 2013 - 2014
• Designed and built custom advertising experiences using Photoshop, ActionScript & JavaScript.
• Handled all levels of development, from animation to inter-action to custom reporting exposure.

RELATED PROFICIENCIES

HTML	NODE
CSS	PYTHON
JAVASCRIPT	POSTGRES
REACT / REDUX	GIT

PROJECTS

WORLD CORONAVIRUS MAP - *REACT, MAPBOX GL, ARCGIS API, TWITTER API*

• An interactive map that tracks the latest infection counts and rates as supplied by the ArcGIS database.
• Map also provides recovery/death counts and rates per selected state or country.
• Users have access to real-time tweets from individuals in the affected areas that are accessed via Twitter's Statuses API.

AJ'S CONWAY GAME OF LIFE - *REACT, LESS*

• Interactive visualization of Conway's game of life, a well-known computational algorithm that makes use of an easy-to-follow deterministic pattern in which selected cells on a grid move through the "life"/"death" cycle via a preconfigured set of parameters.
• End-user may view an animation of this pattern by pre-selecting their own patterns on the grid, or by generating a randomized start pattern.
• Additional UI features grant users further control over the animation cycle.

GITHUB USER LOOKUP - *REACT, LESS*

• GitHub user search engine that returns known GitHub users by handle.
• Typically returns a result, whether or not a known user is inputted.

EDUCATION

FULL STACK WEB DEVELOPMENT
Lambda School
2019 - 2020
Continuing web development education, focusing on current technologies and best practices. Technologies include React.js for frontend development, Node.js (backend), Python (CS theory, data structures & algorithms) as well as Knex & PostgreSQL for query-building and database management.

A.S., DIGITAL MEDIA COMMUNICATIONS
KATHARINE GIBBS SCHOOL
2004 - 2006
Web major, focusing on design theory and and application through practical development. Acquired knowledge of Adobe CS, HTML, CSS & ActionScript. Graduated in the top 10 percentile.
